			<p>environment) Resource efficiency is an important element in efforts to sustain economic development while maintaining natural systems.</p> <p>Municipality's priorities concern mostly actions such as:</p> <ul style="list-style-type: none"><li>• <b>To integrate sustainable water management with resource efficiency in other areas, such as agriculture.</b></li></ul> <p>The scope of sustainable management of water resources in agriculture concerns the responsibility of water managers and users to ensure that water resources are allocated efficiently and equitably and used to achieve socially, environmentally and economically beneficial outcomes. It includes: irrigation to smooth water supply across the production seasons; water management in rain-fed agriculture; management of floods, droughts, and drainage; and conservation of ecosystems and associated cultural and recreational values.</p> <ul style="list-style-type: none"><li>• <b>Municipal wastewater reuse in Agriculture (Mediterranean crops such as Olive trees, Citrus trees etc) or in Municipal parks.</b></li></ul> <p>Wastewater and its nutrient content can be used extensively for irrigation and other ecosystem services. Its reuse can deliver positive benefits to the farming community, society, and municipalities.</p> <p><b>Short profile of the organization:</b> Rhode's natural resources, in the form of land, sea, freshwater and biological diversity, are valuable assets which will be protected and used sustainably. Rhodes municipality has participated in a number of projects within the framework of Community programmes and initiatives.</p>	<p>Official address: Eleftherias sq. 85100 Rhodes, Greece Email: <a href="mailto:chgamvroudis@rhodes.gr">chgamvroudis@rhodes.gr</a> Telephone +30 22413 61385</p>
